

# An American Union Supports the Constitution

The Preamble to the Constitution lists five duties for Americans. When We the People form a more perfect Union of swing voters, we can enact transformative legislation.

## **Establish Justice**

Mass incarceration is a moral stain on our nation. We'll transform our criminal justice system with police and prison reforms, and end the federal drug war.

## **Ensure Domestic Tranquility**

The two parties try to make Americans hate each other. We'll be the calmer heads that prevail in partisan elections, and when we do, enactment of our legislative package will improve everyone's quality of life.

## **Provide for the Common Defense**

Our endless wars have exceeded our Constitutional mandate - it's time to bring our troops home. We'll improve our moral standing in the world while reducing our military spending.

## **Promote the General Welfare**

Allowing 7 million children to live in poverty is a terrible policy choice. We'll ensure American prosperity with 300 million American Union jobs – an unconditional \$300 per week, plus a public option for health insurance.

## **Secure the Blessings of Liberty, to Ourselves and Our Posterity**

American children shouldn't inherit 20th century problems; we'll offer 21st century solutions to meet America's responsibilities, and vote together to see them enacted.

# An American Union Is a Better Political System

Tired of how Republicans and Democrats run Congress?

The American Union is a union of swing voters, collectively bargaining for a better social contract. We demand immediate passage of our legislative package in exchange for our winning block of votes on November 8, 2022, which will:

- **End poverty**
- **End mass incarceration**
- **End the endless wars**

*The problems of racial injustice and economic injustice can not be solved without a radical redistribution of political and economic power.*

**- Martin Luther King Jr.**

## **Less politics. More policy.**

We'll deliver the American Union's demands to Congress as a crowdsourced legislative package – clean legislation written outside of the Washington swamp – and reelect all the incumbents of both parties who enact it prior to the 2022 election. Everybody wins.
